Portfolio: khalid-khan-dev.vercel.app

PROFESSIONAL SUMMARY

Computer Science student and Full-Stack Developer building modern, production-grade web applications. Experienced in engineering full-stack e-commerce platforms with Clerk auth, Supabase, and Stripe, alongside browser-based utility suites and modern Next.js solutions. Passionate about clean UI, security, and performance.

TECHNICAL SKILLS

Frontend & UI: Next.js 16 (App Router), React 19, TypeScript, Tailwind CSS v4, Framer Motion
Backend & Database: Supabase (PostgreSQL with RLS), REST APIs, Cloudinary, Node.js, Python
Auth & Payments: Clerk Authentication, Stripe Checkout integration, Webhooks
Tools & Deployment: Git, GitHub, Vercel, Responsive Web Design, Vitest, Zod

LIVE PROJECTS

1. Fashionstyle E-Commerce Store [Live: e-commerce-fashion-style.vercel.app | Code: github.com/khalidkhan99/E-commerce]
- Full-stack fashion store with catalogue browsing, filtering, size selection, wishlist, cart, and tracking.
- Built with Next.js 16, React 19, Clerk Auth, Supabase PostgreSQL with RLS, Stripe, and Cloudinary.

2. AllTools Online Platform [Live: all-tools-tech.vercel.app | Code: github.com/khalidkhan99/all-tools]
- Comprehensive web utility platform featuring 30+ browser tools for images, PDFs, converters, and code.
- 100% private client-side processing with zero server file uploads and instant responsive performance.

3. Personal Portfolio [Live: khalid-khan-dev.vercel.app | Code: github.com/khalidkhan99/khalid-khan-Portfolio]
- Modern web developer portfolio built with Next.js, React, TypeScript, and Tailwind CSS.
- Dark/light mode, animated particle canvas, SEO schema markup (JSON-LD), and contact form.

EXPERIENCE

Freelance Full-Stack Developer | Self-Employed 2024 - Present
- Architected and shipped 3 live web applications including Fashionstyle Store and AllTools Online.
- Integrated Clerk authentication, Supabase relational models with RLS, and Stripe payment flows.

Freelance WordPress Developer | Self-Employed 2023 - Present
- Delivered 5+ websites for clients with customized responsive designs and SEO optimization.

Computer Science Student | University 2022 - Present
- Core focus on Software Engineering, Database Systems, and Modern Full-Stack Web Architecture.

CERTIFICATIONS

- AI Essentials -- Google / Coursera (2024)
- Python for Everybody -- University of Michigan / Coursera (2024)
- CS50x: Introduction to Computer Science -- Harvard University (2024)
